**ESSENCE COLLECTION**

*“ESSENCE”, for me means the return to the basics, white porcelain & a shape that’s pure. The story, based on the expression of a curve & how light plays off the surfaces when the shadows & light plays off the shapes. The shadows, the reflections & form all acting as “one” creating a small scale sculpture of function & pleasure.*

*The collection is made up of groupings named:  
Signature, Coup & Banquet plus a niche group Gourmet.*

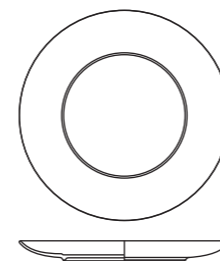

*Each group has a target market & usage,  
so the collection is easy to understand once you have the logic of it’s structure.*

## SIGNATURE

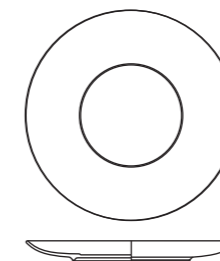

*The "Signature" pieces set the tone of the collection, the spirit & essence of the shape in the purity of white porcelain.*

## GOURMET

*The "Gourmet" items are the answers to an ever increasing trend of bowls & trays. The bowls were created to give focus to the food, whilst the square & rectangle pieces are versatile when used as a "tray" that's really great for tasting items as well as classics such as sandwiches, burgers etc.*

ESSENCE COLLECTION MAP

RENE OZORIO

*Rene Ozorio, is a designer working in tableware, interiors and food concepts. His work is being used by star chefs, restaurants, hotels and cruise lines. Collaborating with chefs, restaurateurs and artisans, his work references fashion, architectural forms, artefacts as well as ethnic arts and crafts.*

*He sees tableware as a combination of sculptures and forms that subconsciously and subliminally add visual texture to our dining experience and as a reflection of the evolution of "how we eat, today" in the context of the "rituals of dining" both of the past and in the future. Tactile, sensual and visual his shapes speak of cultures, both Asian and Western.*
